The Home of New York and Springfield Fire and Marine of Massachusetts. He will also represent other companies and do a general insurance business. Parties wishing protection cannot do better than to patronize his agency. 1m.

Lots For Sale.

Parties desiring locations on which to build houses for business purposes or residences, would do well to call on the undersigned, who will sell lots at reasonable rates. All said lots are situated on the east side of the railway opposite the depot. For terms etc., apply to M. SALAZAR.

Office northeast corner of the plaza. 246-1f.

THE NEW MEXICO DIAMOND DRILL CO.

This Company has acquired the exclusive right to use and sell, and license others to use their improved DIAMOND ROCK-BORING machinery within the Territory of New Mexico with the exception of Grant county.

By the use of these drills only can mines or shafts be penetrated to a depth of 800 THOUSAND FEET upwards through solid rock, vertically or horizontally, and

Perfect Samples of Mineral Taken on the entire distance. These samples so obtained are not disintegrated fragments of rock but continuous solid cylinders, showing clearly the stratification and character of the material bored through. The great value of these drills, and this method of prospecting is obvious and most apparent.

THE NEW MEXICO DIAMOND DRILL CO.

Are now prepared to prospect Leads or Mines to 1,000 feet or upwards at prices MUCH LESS THAN THE COST OF SINKING A SHAFT, OR FOR A SHAFT IN THE CLAIM OR MINES SO PROSPECTED.

For further information apply to the office of the Company.

71 Broadway N. Y.

Or to the Company's authorized agent,

E. PLATT STRATTON, Cimarron, N. M.

FOUND.—A B. Stone's Rubber Gum Paint—a perfect protection for all outside surfaces: iron fences, lamp posts, shingle roofs, iron bridges, wood shingles, tin or iron roofs, smokestacks, or anything exposed to the sun, rain, frost or heat. I will apply this paint for \$1.25 per hundred feet, warranting it to last three times as long as any other paint, and it is fire proof; so by using it on shingle roofs it often saves other houses from burning by being near others when others are burning. After a roof has been painted with this paint you can light a pipe knot and throw it upon it and the knot will burn to ashes without injuring the roof. On tin or iron I warrant it not to crack, roll or blister. I can warrant this paint for seven years. Leave orders at the GAZETTE office. A. B. STONE. 115-1f

The Creek Indians have

Agreed to Turn Over the

Murders of Cobb.

Dr. Tanner's Fast-He Will

Finish His Forty Days To-

morrow.

The King of Siam will Visit

the United States—Jay

Gould.

Weaver, the Greenback Nom-

inee for President, is Solic-

iting Funds.

THE EASTERN QUESTION.

London, August 5.—The Times says: It appears that the battle was in parallel order, and that no maneuvering was attempted. It is evident the Bombar were of such inferior physique that they could not stand up to the stalwart Ghazies, who were down on them sword in hand. Giving way to a sudden panic they mobbed the veteran 66th regiment and caused the almost total annihilation of that fine corps. The cavalry do not seem to have co-operated with much effect. The suffering of the troops in their uninterrupted fight of forty miles must have been terrible, for the present season is the hottest time of the year there, and they had been fighting and marching without food or water eighty-four hours.

APPEALING FOR GREENBACKS.

Washington, August 5.—General Weaver, the Presidential nominee of the National Greenback Labor party, has issued a circular to the members of the party appealing for a contribution of one dollar and upwards to aid in defraying the expenses of the campaign from now till November.

Washington, July 5.—The rear admiral, Patterson, conductor of Asiatic station, reports that he expects to go from Yokotama to the mouth of the Pecho, in company with Asuselot, which conveyed the United States commissioners as far as Tientsin, on the way to Aching.

The King of Siam assured the conductor of the Steamer Sitotora that he had not relinquished his intention of visiting the United States.

Commissioner Baum, officially informs the Secretary of the Treasury that during the past fiscal year \$123,951,916 internal revenue taxes have been collected, and the entire sum paid into the treasury during the past fiscal year; the total amount of taxes received by the collector of the internal revenue was, \$157,080,885, and the entire sum has been paid into the treasury department. The series of the expenses of the bureau will be about \$19,920,000 and a little more than three and a half per cent. upon the amount collected.

During the past four years 3,874 illicit distilleries have been seized; 7,780 persons arrested for illicit distilling, and twenty-one officers and employees killed and twenty-five wounded while enforcing the laws. Frauds upon the revenue have been greatly reduced, and violent resistance to law has practically ceased, except in the second district of Georgia.

A NEW RAILROAD.

New York, August 5.—A Washington special to the evening Graphic says Jay Gould has had surveyors busy in Montana all summer and proposes to head off the Northern Pacific by an extension of his own lines to Puget Sound. He has had surveys made of the first 100 miles for a new track, and it will start from Cheyenne and pass within 20 miles of Fort Laramie, or, perhaps, to that place, and then go on to the vicinity of Fort McKinney; thence the road will run west through the Big Horn country to the Yellowstone Park.

DR. TANNER.

New York, August 5.—Upon making the usual examination of Dr. Tanner this afternoon, Dr. Dunn found his condition as follows: pulse, 78; temperature 98 1-15; respiration, (dynamometer tests) 84 kilometres in right hand and 80 in left. Notwithstanding the inclement weather an unusual number of visitors were at the hall throughout the day. At 4:30 the Doctor was attacked with violent itching and vomiting, and being very weak in consequence he took an antidote of hot water, and was resting quietly on a cot at 5 o'clock.

St. Louis, August 5.—Private advices from Vinita, Indian Territory, referring to the recent disturbance between the Cherokee Indians and negroes belonging to the Creek Nation. The same compromise has just been effected, the Creek Indians agreeing to surrender the Negroes who killed young Cobb and wounded young Cowen.

The "old unreliable" was out of order last night, and we, therefore have rather a short report this morning.

The Guaymas Branch of the A., T. & S. F. Railroad.

W. R. Morley, Chief engineer of the Atchison, Topeka & Santa Fe railroad company, and at present in charge of the construction of that branch from Guaymas east, arrived in town yesterday. We called on Mr. Morley at his room in the Palace Hotel, and, though he was suffering somewhat from the effects of the heat and the stage trip from Guaymas here, and was busily engaged in attending to his correspondence, he kindly furnished the following information for the readers of the Citizen:

The most of the work so far has been done on the first four miles of road leading out of Guaymas, where the grade is heavy, and several bridges have been built. The natives he has employed have done very well, tho' Mr Morley informs us that he shall have to get other help, owing to his inability to secure a sufficient number of the right kind of men in Sonora. He has been importuned a good deal by men in search of positions as bookkeepers, clerks, etc., but having no use for any such persons he could not give them employment, but he needs and can give work to a number of blacksmiths, carpenters and bridge-builders. If a sufficient number of men can be had, Mr. Morley hopes to be able to complete the road to Hermosillo by February or March next, having enough material now afloat to lay down that amount of track. A shipment of material for the road arrived the day he left and another has in all probability arrived before this. The ties and bridge timber are obtained from California and Oregon.

In answer to a question as to where the road would go after reaching Hermosillo, Mr. Morley stated that it had not yet been permanently located beyond that point; in fact, no survey had yet been made up the Sonora river in the direction of El Paso.

There are quite a number of Americans going into Sonora, and, while the little rebellions down there are annoying, they do not amount to much, and he thinks will entirely cease as soon as the railroad opens up the country.—Tucson Citizen.

Going It Blind.

Mining a few years ago in this Territory, the discoverer of a prospect would sink a vertical shaft in the fond hope that it would lead him down to mineral. This blind work he would continue till his means or his patience gave out, and then he would abandon his claim. Another would come along and seeing evidences of mineral, would run a tunnel in search of the treasure. This he would continue till his money was exhausted, and then he would have to give up. It was evident by outcroppings and other indications that mineral was there, but shafting and tunneling carried on at haphazard had failed to find the sought for prize.

Such costly experience has taught wisdom. The prospector is now more chary of his labor, and consults common sense in his conduct with obdurate rock. He first seeks traces of ore, and if he finds the rock impregnated or a cleft filled with the mineral, he reasonably concludes he is on the track, and follows up the lead in whatever direction it may carry him until he arrives at the main body. His search once rewarded with a find, he is then in a position to sink a working shaft, and follow it up with such explorations as the development of the treasure may justify.

The hunter in pursuit of game follows the track of the animal he seeks. He has acquainted himself with its habits, and so directs his strategy as to come upon the quarry in its lair. Without the knowledge necessary for success in sport, a man might wander for a whole week in the woods and expend a whole maga-

zine of ammunition without killing game. So the miner must have some knowledge of the processes by which nature works, and when he is satisfied he has found the place in which she has stowed away her treasure, it is necessary that he adopt the right methods in arriving at the hoard. Stray shots very rarely bring down an object, and chance holes made in the rock are in no way likely to lead to mineral.—Southern Utah Times.

LAS VEGAS ACADEMY.

A Move in the Right Direction.—The incorporators meet and elect Officers and Appoint Committees.

At a meeting of the incorporators of Las Vegas Academy, held last night, Messrs. L. P. Browne, Geo. W. Prichard, James A. Lockhart, John Robertson, Jefferson Reynolds, C. R. Browning and C. E. Wesche responded to the roll call and elected the following officers:

President, L. P. Browne; Secretary, C. E. Wesche.

Rev. Dr. Forrester, participated in the debates of the meeting, representing Prof. Bliss, the originator of the idea of the Academy. On motion, Messrs. Browning, Lockhart and Robertson, were appointed a committee to draft by-laws. The report of the committee on by-laws was adopted, whereupon the meeting proceeded to the election of trustees, which resulted as follows:

TRUSTEES.

Trinidad Romero, C. R. Bliss and James A. Lockhart, 5 years.

Louis Sulzbacher, E. P. Tenney and Geo. W. Prichard, 4 years.

Jefferson Reynolds, E. W. Blatchford and C. R. Browning, 3 years.

C. E. Wesche, C. C. Lyman and John Robertson, 2 years.

L. P. Browne, David Whitecomb and Alfred H. Gage, 1 year.

After the election of the trustees, the meeting of incorporators adjourned, and the meeting of trustees was called to order and the election of officers of the board of trustees proceeded with which resulted as follows:

President, Trinidad Romero; Vice-president, Louis Sulzbacher; Secretary, Geo. W. Prichard; Treasurer, Jefferson Reynolds.

The following executive committee was elected: Jefferson Reynolds, James A. Lockhart, Trinidad Romero, Louis Sulzbacher, Geo. W. Prichard, L. P. Browne and C. R. Bliss.

Jefferson Reynolds was elected President and J. A. Lockhart Secretary, of the executive committee.

The following resolution was also carried:

Resolved; that the tuition at the Las Vegas Academy be free; provided the necessary funds can be raised by subscription. The executive committee was appointed to ascertain that fact.

The party that threw several barrels of rotten eggs into the acequia near Mr. Wooten's residence, is herewith informed that on a recurrence he will not have the services of the prisoners, but be obliged to remove them himself. People are using the water of this acequia for domestic purposes, and it is a shame that persons should be so inconsiderate as to throw such poisonous matters into a public acequia.

HENRY BECKER, Chief of Police.

Cottages to Rent.

Two new cottages to rent at the Hot Springs. Apply to the New York Clothing Store, East Las Vegas. 314-1f.

—Go to M. Heise, on the south side of the plaza for fine wines, liquors and gars. 253-1f.

—You can always rely on a square deal and get full value for your money at the store of C. E. Wesche.

Houghton's Armory.

O. L. Houghton has a regular arsenal of fire-arms, the largest stock in all the west. It is not only for a retail, but for a wholesale trade that he is prepared. His advantages for buying enables him to sell this class of goods as low as they can be got anywhere.
